As a person with terrible short-term memory I want to be challenged by a memory problem every morning.		Unfinished from sprint 2	Eric	DONE		
	Figure out how to lay out the memory cards			DONE	2013-09-30	Eric
	If two cards are matched, remove them			DONE	2013-09-30	Eric
	once all the cards are gone, the challenge is over.			DONE	2013-09-30	Eric
As a person with bad short term memory I want to change globally if I want to see when the alarm will ring and in how much time.		Unfinished from sprint 2		DONE		
	Add to global settings		Johan	DONE	2013-09-27	Johan
	Implement actual functionality		Mazdak	DONE	2013-09-29	Mazdak
	Display in the MainActivity (instead of "Next alarm in x hours y minutes")		Mazdak	DONE	2013-09-29	Mazdak
As a user I want to see an overview of the current alarms after completing a challenge.		Unfinished from sprint 2 Do we really want this? Device probably locked		DONE		
	Instead of "go back to alarm activity", go to main		Danny	DONE	2013-09-30	Danny
As a user I want to make the phone vibrate to when the alarm goes off, in order to wake me up faster.			Eric	DONE	2013-10-01	Eric
As a user I want the vibration to stop once I've started working on a challenge.				DONE		
	Stop vibration when you start a challenge		Eric	DONE	2013-10-01	Danny
As a snake lover I want to play a Snake game to shut the alarm off, in order to get myself to focus and not fall back to sleep.				DONE		
	Implement game model		Johan	DONE	2013-10-03	Johan
	Make game loop		Johan	DONE	2013-10-03	Johan
	render the model		Johan	DONE	2013-10-03	Johan
	add to ChallengeFactory/ChallengeType		Johan	DONE	2013-10-03	Johan
	Commenting/JavaDoc		Johan	DONE	2013-10-03	Johan
As a person that wants to interact with my alarm in the phone as a more physical device I want to use flipping, shaking, and the native volume, power buttons for different actions.				TODO		
	Implement azimuth rotation controller		Laszlo	DONE		Laszlo
As a person that likes graphic visualizations, I want to see a logo designed for this app on the home screen and main activity.						
	Design a logotype specified for SleepFighter		Danny	DONE	2013-10-03	Danny
	Create a vectorized version of the logo		Danny	DONE	2013-10-04	Danny
	Make 3 different types of the logotype (icons); launcher, notification & action_bar		Danny	DONE	2013-10-04	Danny
As a person that sometimes want to sleep a bit more I want to snooze the alarm for a given time.						
		Configurable snooze time?		DONE	2013-10-04	Niklas
	Add ui element(s)			DONE	2013-10-03	Niklas
	Implement the scheduling logic	Have max time and max count?		DONE	2013-10-03	Niklas

User story	Task(s)	Comment	Assigned to	Status	Completed on	Completed by
	Add snooze properties in model and persist in database			DONE	2013-10-04	Niklas
As a lazy person, I want to set a global preset for options not set in individual alarms, in order to not configure everything.		Dummy alarm item, new items copy of it	Eric	DONE		
As a person that likes details, I want to see what time it is when the alarm is ringing.			Danny	DONE		
	Implement methods		Danny	DONE	2013-10-04	Danny
	Create a timer		Danny	DONE	2013-10-04	Danny
	Connect with the xml (00:00)		Danny	DONE	2013-10-04	Danny
	Update the UI		Danny	DONE		Danny
As a person that likes details, I want to see which alarm it is that is ringing.						
	Add ui element(s)		Danny	DONE	2013-10-01	Danny
	Fetch and set name from model		Danny	DONE	2013-10-01	Danny
As a user I want to set the volume for a specific alarm, in order to have many alarm that are of variable volume.				TODO		
	Store in model	int 0-100? Slider? Allow 0% (Mazdak thinks no.) ?	Johan	DONE	2013-10-04	Johan
	Add to gui in AlarmSettingsActivity		Johan	DONE	2013-10-04	Johan
	Fix persistence		Johan	DONE	2013-10-04	Johan
	Use the volume when playing the alarm sound					
As a user i want to see a notification in the notification tray when an alarm is enabled in order to easily see if I have one enabled, without launching the app.				DONE		
	Be able to launch a notification with the content needed			DONE	2013-09-27	Niklas
	Add localization for notification messages			DONE	2013-09-29	Niklas
	Documentation			DONE	2013-09-30	Niklas
	Show and construct notification from AlarmPlannerService			DONE	2013-09-30	Niklas
As a user i want to see a notification in the notification tray when an alarm is ringing which I can click to get to where it can be disabled, in order to quickly get to the challenge.				DONE		
	Be able to launch a notification with the content needed			DONE	2013-09-27	Niklas
	Add localization for notification messages			DONE	2013-09-29	Niklas
	Documentation			DONE	2013-09-30	Niklas
	Launch notification when alarm goes off and remove when disabled			DONE	2013-09-30	Niklas
As a user that wants many alternative ways to reach actions i want to be able to toggle and delete alarms via alarm details action bar			Mazdak	DONE	2013-10-03	Mazdak
	Implement delete in menu		Mazdak	DONE	2013-10-03	Mazdak
	Implement toggle in menu		Mazdak	DONE	2013-10-03	Mazdak
