

## **Vision**

For sleepy people who want a fun way to quickly wake up, SleepFighter is an alarm app that compels the user to wake up faster. Unlike other alarm apps, our product is hard to turn off in a drowsy state, as it requires the focus of the user in order to solve one of many short, engaging and creative challenges.

The target time frame is five weeks, 600 hours of development.

## **Features**

- The basic "wake up" alarm features (repeat, weekdays etc.)
- Some different challenges / small games the user need to complete to stop the alarm
- Multiple stored alarms
- Localization (English and Swedish at least)

## **Secondary features**

- Spotify integration
- Point system (rewards for completing quickly etc.)
