

Release Notes v1.1

General

- Added icons for most settings
- Now possible to set an Internet Stream as Ringtone
- Flashlight can be enabled to activate when alarm rings

Bug Fixes and Changes

- The back button should now work properly for all views
- Test Challenges should no longer award points
- The app should no longer crash when trying to use a deleted playlist
- Challenge Settings should now be persisted properly
- Shake Challenge should no longer progress while just lying down on a static surface
- RotoSnake now allows food item to be collected even when not completely obscured
- Volume settings slider now allows more precise volumes
- The Default Alarm will not be set to repeating by default
- The settings for individual Challenges are now correctly persisted to database. This change is not backwards compatible. Any changes from the default will be lost.

Known Issues

- RotoSnake does not control properly when device is parallel to ground
