As a person that wants to interact with my alarm in the phone as a more physical device I want to use flipping, shaking, and the native volume, power buttons for different actions.		Unfinished from sprint 3, scrapped		SCRAPPED		
	Implement rotation controls		Laszlo	DONE		Laszlo
	Divide into smaller user stories		Laszlo	SCRAPPED		
As a user I want to set the volume for a specific alarm, in order to have many alarm that are of variable volume.		Unfinished from sprint 3 There seems to be a persistance problem with AudioConfig, new volume not in reciever after change (fetch used)				
	Store in model	int 0-100?	Johan	DONE	2013-10-04	Johan
	Add to gui in AlarmSettingsActivity	Slider? Allow 0% (Mazdak thinks no.) ?	Johan	DONE	2013-10-04	Johan
	Fix persistance		Johan	DONE	2013-10-04	Johan
	Use the volume when playing the alarm sound		Niklas	DONE	2013-10-09	Niklas
As a sleepy but athletic person I want a motion controlled challenge in order to wake me up.		Was removed from sprint 3 due to miscommunication.		DONE		Laszlo
	Integrate snake model.		Laszlo	DONE		Laszlo
	Integrate snake view.		Laszlo	DONE		Laszlo
	Integrate snake controller.		Laszlo	DONE		Laszlo
	Connect to rotation controls.		Laszlo	DONE		Laszlo
	Make challenge pausable and resumable.		Laszlo	DONE		Laszlo
	Find good default values.		Laszlo	DONE		Laszlo
As a person that needs to do things fast in the morning, I want to be informed of my immediate environment via speech.			Eric	TODO		
	Get environment and time information			TODO		
	Now read it out using speech			TODO		
As a person that sleeps deep and don't respond to sound nor vibration, I want the flashlight to activate when the alarm goes off.			Danny			
	Check if the current phone has flashlight		Danny	DONE	2013-10-09	Danny
	Make it light up the room when the alarm goes on		Danny	DONE	2013-10-11	Danny
	Add setting for flash	Per alarm or global? I think it should be globally.				
As a person I want to select a playlist to be played when an alarm goes off, in order to wake up to my favourite tracks				DONE		
	Select from device playlists in GUI			DONE		Mazdak
	Store choice in model and persist			DONE		Mazdak
	Implement driver for playlist	Done using AudioService that handles both single track and playlist, not very pretty solution, might not be other realistic way though.	Niklas	DONE		Niklas
As a person that don't respond very much to simple user interface, I want to see flashing buttons in order to make things more interesting.			Danny	DONE		
	Make the challenge-button fade out into nothing		Danny	DONE	2013-10-09	
	Make the same button fade in from nothing		Danny	DONE	2013-10-09	

User story	Task(s)	Comment	Assigned to	Status	Completed on	Completed by
	Make an infinity loop so it looks like it is flashing		Danny	DONE	2013-10-10	
As a person who wants to be further challenged I want a competing element that gives me points when a challenge is completed and removes points when I snooze in order to avoid snoozing.						
	Store points in SharedPreferences		Johan	DONE	2013-10-07	Johan
	Add points when a challenge is completed		Johan	DONE	2013-10-07	Johan
	Display points in AlarmActivity	Also in MainActivity?? Also, Johan doesn't want to make the design decisions by himself	Johan	DONE	2013-10-08	Johan
	Remove points when snoozing		Johan	DONE	2013-10-10	Johan
	Make sure that you can't snooze if you lack points	Disagreed. // Product Owner		DISCARDED		
	Disable points and snooze prevention if challenges are inactivated		Johan	DONE	2013-10-10	Johan
As someone who forgot to turn off their alarm, and it goes off in an inconvenient situation, I want to turn it off quickly, in order to not embarrass myself.			Niklas, Laszlo	DONE	2013-10-09	Niklas, Laszlo
	Implement feature in AlarmActivity		Niklas, Laszlo	DONE	2013-10-09	Niklas, Laszlo
	Compose Strings in resources		Laszlo	DONE	2013-10-09	Laszlo
When I emergency-cancel a challenge alarm I want to lose points in order to not abuse the system.			Niklas, Laszlo	DONE	2013-10-08	Niklas, Laszlo
	Remove points when you cancel an alarm		Niklas	DONE	2013-10-08	Niklas
	Make sure you can't cancel an alarm if you lack points	Disagreed. // Product Owner		DISCARDED		
	Disable point demand if challenges are inactivated		Niklas, Laszlo	DONE	2013-10-08	Niklas, Laszlo
As a user I want to have the alarm increase in volume over time, so I can wake up at as low volume as required, in order to not disturb other people in my environment, but also ensure that I cannot ignore the alarm for too long.						
	Have option in GUI to enable/disable					
	Store in model and persist					
	Actually handle ramping for ongoing audio	Probably needs threading. Done by "manager" type class using setvolume on current driver? Or by drivers individually?				
As a person who risks failing to wake up due to snoozing, I want my alarm to ring louder and louder for every time I press "snooze".		How would this work in conjunction with other volume ramping? One or the other?	Eric	TODO		
As a user I want to have a challenge where i have to shake the device to complete it, in order to have me wake up by physically making an effort			Niklas	DONE	2013-10-10	Niklas
As a user i want to be able to try out different challenges in order to figure out if I want to enable it or not			Niklas	DONE	2013-10-11	Niklas
As a person that sometimes find phone triggering the alarm in a lecture or embarrassing situation I want to select geographic areas with GPS that do not trigger alarms. I want to select them via making polygons by tapping points in Google Maps on the phone			Mazdak	DONE	2013-10-11	Mazdak
	Implemented in model		Mazdak	DONE	2013-10-06	Mazdak

User story	Task(s)	Comment	Assigned to	Status	Completed on	Completed by
	Implemented in persistence		Mazdak	DONE	2013-10-08	Mazdak
	Implemented in controller / view		Mazdak	DONE	2013-10-08	Mazdak
	Implemented refresh receiver		Mazdak	DONE	2013-10-11	Mazdak
	Implemented in AlarmReceiver		Mazdak	DONE	2013-10-11	Mazdak
